

Greetings Fellow VRA Members

Here is the (First-Ever) VRA Canada Inventory of Vocational Rehabilitation Jobs in Canada!

Version 1.0

This Inventory, along with the Comparative Chart, is the first iteration of jobs where practitioners help people with potentially disabling conditions search for, secure, stay at or return to work.

Thank you so much to those who provided data for this first Inventory!

Benefits of this Inventory:

- Learn about the entire range of jobs where the role is to help people with employment challenges search for, secure, stay at, or return to work
- Find jobs
- Open pathways of communication and networking
- Inspire new ways of thinking about and doing our jobs
- Increase employment outcomes for the people we help
- Increase equitable, inclusive and culturally relevant hiring efforts

Version 1.0 of this Inventory is just the start!

We need more data about jobs in this space. If you do not see your job (or other VR jobs you are familiar with) listed in the Inventory, please use the existing headings to submit an overview of what you do to the following email address:

info@vracanada.com with Subject Title '*VRA Canada VR Jobs Inventory*'

Ultimately, we envision the VRA Canada VR Jobs Inventory expanding to cover all of the jobs that we do to help people enter, stay in or return to work across Canada!

In gratitude,

The VRA Membership Voices Committee
